

Sandwell Lift Project

Main Contractor:	Laing O'Rourke
Architects:	AEDAS
Contract Period:	10 weeks
Contract Value:	£18,000,000
Package Value:	£350,000

THE PROJECT

Construction of six state of the art health care facilities across Sandwell represented the first phase of developments for Sandwell NHS Local Improvement Finance Trust (LIFT).

We were on site to install metal stud partitions and screeds. We are delighted to be a part of bringing brand new state of the art health care facilities to Sandwell. In

total six new buildings are planned. The Trust is a public and private partnership which is bringing a wholesale redevelopment of health care across three Midlands Primary Health Care Trusts.

New centres will bring the opportunity for patients to access GP and other primary and community health care services.
